# 9. TECHNICAL INFORMATION

# 9.1 Stage (7meter above streetlevel)

- Useful latitude: 8 meter wide x 6 meter deep (playing surface)
- Flat wooden floor (750 kg / m²) (black)
- Fire Screen
- Height from floor to stage tower bottom grid is 11.50m over a width of 8.30m
- 28 flybars computer controlled operation stage left, some in use for fixed blackdrops, legs, friezes, horizon, movie screen and inbetween curtains (operating system Stalogic Stakebrand)
- 1 entrance to dressing rooms (stairs)
- 1 side entrance to stage left (inclined plane) FOH
- 1 entrance to stage right (stairs) FOH
- Blackbox curtains (standard), horizon (white) and a moviescreen 6 m wide x 4m high
- Stairs on stage left and stage right to the front of house

## Important remark:

The passage from the left to the right stage area is very narrow due to a corner of another building in the stage area (see schedule). One can also pass all the way through/via the ground floor, or go around the stage, but this of course takes a much longer time.

#### 9.2 Measurements

- zeropoint is the back portal bridge (koperen kees)
- proscenium arch is: 8,65 m width x 5,5 m height
- portal bridge: normally 4 m en max. 5,5 m height
- manteau: 1,5 m width x 6 m height (retractable to an opening 6.5 m wide)
- from zeropoint to backwall stage: 10,10 m
- from zeropoint to front stage: 2,5 m (arch)
- from zeropoint to firescreen: 2 m
- from zeropoint to stageleft: 9,80 m
- from zeropoint to stageright: 6,7 m

Be aware that the largest passage to stage area is: 1.5 m width  $\times$  2.20 m height - (diagonal 2.60 m) and 5.88 m long

### 9.3 Flybars

- 26 flybars max.250 kg, 2 flybars max. 150 kg and 60 kg max. point load
- Available flybars: 2,3,4,7,8,9,13,14,15,16,17,18,20,24 en 27
- diameter of pipe is 5 cm
- computer operator stage left
- intercom
- · monitoring from the event on stage

## 9.4 Intercom

- clear-com (everybody hears everybody)
- lightbox
- followspot
- flybar operator
- FOH curtain
- Sound engineer on stage right, and FOH
- callback to dressing rooms on stage right
- monitoring from the event on stage

## 9.5 Extra's

- red and blue backdrop
- white and black gause
- glitter curtain
- 8 risers (2 x 1 m 20, 40, 60, 80, 100 cm)
- 2 tables (2 x 1 m)
- 20 chairs (no armrest)
- 15 music stands

# 9.6 Orchestra pit

- arch shaped
- divided in 3 parts
- max. 20 musicians
- when using the orchestra pit the first two rows of seats of the parterre will have to be removed

## 9.7 Front of house curtain

- red velvet
- operated electrically
- closed in max. 6 sec
- operated from stage left or right

## 9.8 Electricity

- terminals on backstage left and right:
- 380/220 V 63 A
- 380/220 V 32 A
- 380/220 V 125 A
- all on CEE

### 9.9 Lights (see lightplot)

- lightbox in the back of the auditorium, very good view of stage (fixed window)
- walking distance 30 m, cable distance 50 m
- lightdesk: ADB Mentor/XT/512 (DMX 512) and 24 subs extension (or lightdesk Pearl 2004) + Avolite or Avolite Expert
- intercom to stage and followspot
- callback to dressing rooms
- basic stagelight: see lightplot

## Extra lights

- 8 x 4 bar CP60
- 8 x 4 bar CP62
- 10 pars CP60
- 10 pars CP62
- 16 PC ADB 1kW
- 13 Robe Colorspot 250AT Mode4
- 7 Robe Robin plasma wash 300<sup>E</sup> Mode1
- 10 floorcan Par CP62/500Watt
- 10 profile 800W Med ADB Warp 12°-30°
- 4ACl sets Par64

- 8ALC4-2 ADB
- 2 profile 1 kW Wide
- 2 profile 1 kW Wide (condensa)
- 4 stands 2,5 m high
- 6 floorstands
- followspot 1 x HMI 1200 W (no operator!)
- DF50 (1) + Unique (1)

### DMX line

- lightbox to stage (5 pin)
- stage left to stage right (5 pin)
- lightbox to the center of the auditorium (sound engineer) (5 pin)
- 152 circuits  $60 \times 2 \text{ kW}$ ,  $60 \times 5 \text{ kW}$ , 32 Sinusdimmers (Frontlight)

## 9.10 Sound

- Sounddesk Soundcraft GB2, GB4 or Yamaha LS9 (digital)
- F.O.H. with
  - o 2 x D&B Q-Sub + 1x D&B Q-7 (configuration on each side)
  - o 2 x front fill D&B E3 + under Balcony 4 x D&B Delay E3
  - 2 x Center cluster D&B Ci90 + Cluster L+R D&B Ci90
  - Patchpanel stage Jardin
- 14 monitors MAX15
- All amplifiers, equ, etc. are set in function of the house acoustics, with a production of 105 dBA, no distortion and flat, equally spread over the audience.
- Sound levels are monitored during the whole performance and limited according VLAREMII laws. Maximum soundlevel of ≤100 dB(A) L<sub>Aeq,60min</sub>: (environmental license class II)

### Extra's

- \* 1 shure B52
- \* 1 shure B91

6 shure SM 87

- \* 2 shure Beta 57
- \* 2 neumann km 184 \* 2 sennheiser E 906

- 1 wireless shure handheld SM 58
- \* 3 sennheiser E 604
- \* 2 sennheiser C 451

- 2 MD
- 2 CD
- 5 stands
- 3 small stands (table)

### Cabling

- $5 \times 20 \text{ m} (XLR)$
- $10 \times 10 \text{ m}$
- 10 x 5 m
- Small soundmulti stage to lightbox 4 in/4 out on XLR

# Sound - visitors:

- There are  $2 \times 6$  seats available for the visitor's sound system (not under the balcony) in case you want to use this possibility, the house technicians have to be informed at least a fortnight in advance
- There is a lifting table (max 1000kg) for the sound desk FOH
- The auditorium is shell shaped and has a very dry acoustic resonance (0,75 sec)
- Cable distance to the stage (from sound FOH) is min. 40 m.
- There is an intercom to the stage available

## 9.11 General remarks:

- Strict no-smoking policy: smoking is prohibited in the entire building!
- WIFI/internet: free wifi network available in the surroundings of the stage, the backstage areas and the foyers. A personal login-code has to be applied for with your mobile phone.
  - 1. Go to Wi-Fi connections
  - Choose the Wi-Fi "HOTSPOT\_PA"
  - 3. Open your browser and surf to any site. Then you will get a sign-in page.
  - 4. Enter your email address and mobile number (don't' forget the country code) (+32, +31, etc...)
  - 5. Log on to the network with the sms/text message code you received (a 24h permission)
- The use of open flames/fireworks/pyrotechnics is strictly forbidden. The use of confetti/snow/glitter/foam/bubble machines/etc. has to be discussed with the house technicians at least 1 month beforehand.

# 10. LOADING IN & OUT

 Enter the dead-end street "Willem Tellstraat" backwards. At the end of this street is the loading area. There is no permanent parking space here for trucks and cars. Only load in or out is allowed at the Willem Tellstraat.

Be aware that moving bollards block the entrance to this street: they can be taken down by our technicians.

- There is no loading dock or bad weather protection.
- There is a 7 m height difference between street and stagelevel
- freight elevator at 5 m from loading area
- measurements door elevator

width: 1,5 m
 height: 2,2 m
 diagonal: 2,6 m

o longest piece possible inside lift: 5,88 m

o height lift cage: 3 m

- lift speed from level 0 to stage is 40 sec
- max weight of freight: 2.5 tonnes

# 11. THE TECHNICAL CREW

- 6 technicians (working hours from 9-12h and from 13-17h)
- With every evening performance: 1 on stage, 1 in lightbox (present 1 hour before the show)
- For practical and organizational reasons, no stuff from the large auditorium can be used in our small "club", or vice versa. No material belonging to the venue can be borrowed by others, not even by close partners of the venue!
